Your office did acknowledge receipt of our letter requesting engagement on the 2000+ outstanding court matters. We need to resolve this, as these cases are still before court and can't be left in limbo. We have not received a response to date and your lawyers say they have not received instructions from you. The lack of response means that OUTA must now consider approaching the various courts to remove these matters, which will push up costs and our claims against Sanral.

The ball is in your court.

Thanks.

Wayne
